10.00am—12.00pm
1.00pm—3.00pm
Suitable for ages 7+

Tickets Priced at £2

Available from Crewe Library

Call 01270 375295

Children must be accompanied by an adult

MakoEducation's Lego Stop Motion Workshop is the perfect activity to get young people to discover and show off their creative talents.

During this fun-filled activity, you will learn how to bring Lego characters to life and create your own short films.

Participants learn the process of planning, building, shooting, editing and publishing stop motion

movies. MakoEducation will upload the finished Stop Motion videos to their YouTube account, for you to enjoy and share with your friends.

You will be provided with all the equipment and materials for this session, but you may wish to bring any of your own favourite Lego pieces to feature in your movie!
